

More and more dialysis patients are travelling to Mexico on holiday. There are new facilities springing up across Mexico attracting dialysis tourists from the USA, Canada and Europe. There are many key resorts for sun worshippers and cultural delights and sporting activities for people wanting more action.

Global Dialysis has dialysis centers from right across Mexico and premium member centers in the key resorts or [Neuvo Vallarta](#) and [Puerto Vallarta](#) .

Neuvo Vallarta is on the Mexican coast in the state of Nayarit, 15 minutes from the international airport - so excellent travel links and easy to reach.

The area is a planned community, with an abundance of luxury villas, delux sandy beaches and fabulous resort facilities. In the winter the Caguama Turtles lay their eggs on the beaches and the area is protected to help prevent people from stealing and cooking the eggs.

Dialysis Mexico would love to welcome dialysis users to their facilities and help you have a wonderful holiday. Global Dialysis is on hand to help smooth the booking arrangements! Booking couldn't be easier, simply drop and email to booking@globaldialysis.com and we'll help you with the rest!
